I must've died and gone to heaven

| E- | F#- B7b9 | E- | F#- B7b9 | 4x

Cos it was a quarter past eleven

On a Saturday in 1999

Right across from where I'm standing

On the dance floor she was landing

It was clear that she was from another time

Like some baby Barbarella

With the stars as her umbrella

She asked me if I'd like to magnetise

Do I have to go star-trekking

Cos it's you I should be checking

So she lazer beamed me with her cosmic eyes

chorus

She's just a cosmic girl

From another galaxy

| G#- F#- | F#- | B C#- | C#- | 4x

My heart's at zero gravity

She's from a cosmic world

(oh wow wow wow)

Putting me in ecstasy

Transmitting on my frequency

(oh wow wow wow )

She's cosmic

verse2

I'm scanning all my radars

| E- | F#- B7b9 | E- | F#- B7b9 | 4x

We'll she said she's from a quasar

Forty thousand million light years away

It's a distant solar system

I tried to phone but they don't list 'em

So I asked her for a number all the same

She said, step in my transporter

So I can teleport ya

All around my heavenly body

This could be a close encounter

I should take care not to flounder

Sends me into hyperspace, when I see her

pretty face
