

## Soul with a Capital S

**Intro** Snr / / / / - then 5 horn pops

**Verse 1** There's all kinds of music, everywhere you go  
Some folks like it fast, and some like it slow  
Some like it hot, some like it blue  
Uh some like it old, and some like it new  
Now I'm not liking country, and I'm not rappin' rap  
You can make a man swing, just say my thing  
No, I'm talkin' to dig, my step

**Bridge 1** The only thing that turns me on  
Is when I hear a soulful song

**Chorus 1** I like soul with a capital S  
Soul with a capital S  
Sweet soul music, that's the best  
Soul with a capital S

**Verse 2** Music makes you happy, thinking makes you sad  
It can do the worst thing to the best you ever had  
For entertainment found you if you had to choose  
You and me might disagree, 'cause I like rythm and blues  
Now I'm not missin' disco, I'm not saying punk is bunk  
I can't settle for heavy metal, cause I got to have that funk

**Bridge 2** The only thing that turns me on .....

**Chorus 2** I like soul with a capital S .....

**Verse 3** Oh, there's people who tell you to get in with the times  
It doesn't even matter that if your poem rimes  
But I'm here to tell you, whatever comes along  
There's something that gave up everyone  
and there aint no right or wrong  
Some rock makes you lazy  
Highschool leaves you flat  
Fusion drives you crazy  
That's now funk is where it's at

**Bridge 3** The only thing that turns me on .....

**Chorus 3** I like soul with a capital S .....

**Solo** Sax Solo

**Chorus 4** I like soul with a capital S .....  
Chorus breakdown

**Ending** 5 horn pops ~~ / / /
