

NOW

(Chorus)

Girl I need your love tonight
I can't wait I must know
What's on your mind
The same thing's on mine
I can't wait any longer
Oh yeah 'cause I need you now

Right now

Now

Right now oh yeah

[Verse 1]

They'll never take this night away
It's yours and mine until the day
It's all right for one night
We'll never have this chance again
So love me now and we'll pretend
It's all right for one night right now

(Chorus)

I need your love tonight
I can't wait any longer
'Cause the time has come
Oh yeah and I need you now

NOW

[Verse 2]

Girl we got no hiding place
We've got to keep up the pace
When the things you want
Well they're just out of reach
Til the time is right
It's got to be tonight
Why wait any longer
Oh yeah 'cause I need you now

(Chorus)

I need your love tonight
I can't wait, I can't wait
'Cause the time has come
Oh yeah and I need you...

[Verse 2]

They'll never take this night away
It's yours and mine until the day
It's all right for one night
We'll never have this chance again
So love me now and we'll pretend
It's all right for one night right now

(Chorus)

I need your love tonight
I can't wait any longer
Cause the time has come
Oh yeah and I need you now

Right now

Now

Right now oh yeah
